AB2161.87

32 1/2" x 20 1/2"

2" Honed

AB2262.88

26" x 18"

Alchemy also offers steel vanity bases designed specifically for these stone tops. See "Steel Vanity Base Specifications" for more info.

NOTES: These countertops are French Limestone, a light cream colored porous stone with slight veining. Stones are sealed after carving to protect from spot staining. The larger stone with rough-hewn edge has a coarser grain and small pieces may flake off the roughened edges. The smaller stone has a denser structure that allows the surfaces to be honed to a smooth flat finish. Both have carved out center areas to support our above-counter round sinks. Countertops are supplied with a C-Washer and extra nut for sink installation with an Alchemy drain assembly (see "C-Washer & Stone Countertop Installation Instructions" for more info). No mounting ring is needed with this type of countertop.

SPECIFICATIONS: ENZO COUNTERTOP (FOR UNDERMOUNT SINKS):

STANDARD SIZE

ITEM NUMBERS:

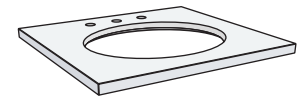

40" Standard Top

AB2363.88

40" x 24"

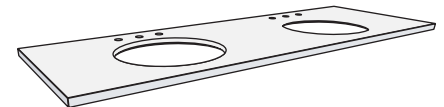

26" Small Top

AB2463.88

26" x 24"

76" Double Top

AB2563.88

76" x 24"

See "Enzo Lagno Cabinet Specifications" for more information on the cabinets these tops are designed to sit on.

NOTES:

These countertops are French Limestone, a light cream colored stone with slight veining. Stones are sealed to protect from spot staining. The Enzo Lagno countertops have a stepped oval cutout for Alchemy's oval undermount sink and three (3) 1 1/4" diameter holes on 4" centers for a spread set deck mounted lavatory faucet set. Undermount sink mounting clips come with the Enzo Lagno cabinet. Surfaces are honed smooth and edges are straight with a slight chamfer.
